EXHIBIT "A"

The only post Katrina written Contracts which River Birch has or had with reference to the disposal of Solid Waste, C & D or Hurricane debris into its Landfill are as follows (It is assumed that either FEMA or COE has paid part or all of these disposal costs):

- a) Contract between ECC Operating Services, Inc. (ECC) and River Birch dated December 16, 2005 for the disposal of C & D at River Birch's Landfill for \$2.50 per cubic yard and for the disposal of Solid Waste at its Landfill at a price to be mutually agreed upon;
- b) Contract between ECC and River Birch dated October 10, 2005 for River Birch to operate a Transfer Station, to direct and monitor the Waste disposed therein by ECC and to supervise the transfer of that Waste to trailers and to dispose of that Waste for \$4.00 per cubic yard. This Contract has already been cancelled; and
- c) Contract between Loupe Construction & Consulting Co., Inc., and River Birch dated October 4, 2005, for the disposal of C&D at River Birch's Landfill for \$2.50 per cubic yard and for the disposal of Solid Waste at its Sub-Title D Landfill at the rate of \$29.13 per ton.

However, River Birch had pre-Katrina Contracts with various entities for the disposal of Solid Waste and C & D (Waste) into its Landfill, e.g., Orleans, St. Bernard and St. Charles Parishes. Since Hurricane Katrina, River Birch has disposed of Waste from one or more of those parishes. It is assumed that either FEMA or COE have paid part or all of these disposal costs. In addition, since Katrina, River Birch has disposed of Waste from other parties which it bills directly, e.g., T. Rice

& Associates, L.L.C. Again, it is assumed that either FEMA or COE has paid part or all of these disposal costs. River Birch does not have any Contracts directly with FEMA or COE.

Generally, River Birch charges between \$29.00 and \$30.00 per ton for the disposal of Solid Waste generated as a result of Hurricane Katrina at its Sub-Title D Landfill and \$2.50 per cubic yard for the disposal of C&D generated as a result of Hurricane Katrina at its C&D Landfill.
